A Variety of teaching techniques are used in this college through out the Programme with emphasis on Lectures, supporting tutorials and laboratory classes. Continuous assessment forms a major part of the teaching learning process. The faculty guides the students both for group as well as individual Projects. We have a very rigorous system of continuous monitoring and evaluation of the quality of the students. We are continuously striving to imbibe quality and character in the students, so that they can always be assured that they are getting value added inputs from the campus life here. This is just one example of what NCERC is whatever you are looking for from your chosen place of study, you can rest assured that NCERC is committed to offer you personal support and guidance through out your course of study here. Objectives To become a Centre of Excellence in information and Communication Technology. To have collaboration with Technological Universities in the world. To be a Centre for training people in Advanced Technologies in Mechanical, Automobile, Electrical, Electronics, Computer Engineering and Management.

Nehru College of Nursing ,Vaniyamkulam,Ottapalam,Palakkad Dist. is a Nursing Institute one among a few of its kind to facilitate quality education in the health care field under PKDAS INSTITUTE OF MEDICAL SCIENCES with a mission to bring world class health care within the reach of every person and to maintain excellence in medical education and research. Nursing Scenario Kerala has been known for the large number of quality nurses migrating to work in hospitals around the world.This migration has benefited not only the economy of the state but has also earned it a great deal of goodwill in the Malayali nurses toiled on in distant foreign lands in dedicated professionalism effacing self. In today`s world of medicine marked by ever increasing specializations on the one hand and the rising incidence of life style diseases on the other , the paramedical professions led by Nursing is declined to play a crucial complementary role in delivering quality health care.However though nursing is in great demand as a professional graduate course in Kerala, the number of recognized institutions with clinical practice facilities offering the course is very few prompting the aspirants to migrate to other states for doing the course. Nehru College of Nursing promoted by Nehru College of Educational and Charitable Trust),has been set up to cater to this felt need for a quality Nursing Institution at home. PKDAS Insitute of Medical Sciences also situated at Vaniyamkulam and run by Nehru College of Educational and Charitable Trust with departments more than 25 specialities is a 400 bed world class hospital which can exclusively be used by Nursing College students for clinical practice. The "Nightingale Pledge" I solemnly pledge myself before God and in the presence of this assembly, to pass my life in purity and to practice my profession faithfully. I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug. I will do all in my power to maintain and elevate the standard of my profession, and will hold in confidence all personal matters committed to my keeping and all family affairs coming to my knowledge in the practice of my calling. With loyalty will I endeavor to aid the physician, in his work, and devote myself to the welfare of those committed to my care.

Mar Baselios Christian College of Engineering & Technology, Kuttikkanam, Peermade, is a self-financing institution for professional Education, affiliated to Kerala Technological University & Mahatma Gandhi University and approved by All India Council for Technical Education (AICTE), New Delhi. The College is owned and managed by the Malankara Orthodox Syrian Church, which plays a paternal role in the institutions establishment and operations. The institution focuses on offering baccalaureate degree programs in various Engineering streams. In 2001, the College started functioning as a new generation Engineering College. Since its inception in the year 2001, the College has been on a steady path of growth and up-gradation. Our aim is to provide our students with the best possible facilities and the right training. We emphasize on teaching excellence and wholesome learning experience and strive towards making MBC a premier educational institution. With the various batches of students already passed out with flying colours, the College is well on to fulfil its long term objective of being a centre of excellence as far as quality education and student life is concerned. The College has continued its advancement as a centre for learning and public service coupled with excellent university exam results, high profile campus placements and cultural activities. The full time B.Tech enrolment of about 1600 students, the emphasis on teaching excellence, and the increasingly high proportion of students and teaching faculty residing in the campus highlight the personal collegiate atmosphere that makes the MBC Campus quite unique.

Little Flower Institute of Medical Sciences & Research, Angamaly is a teaching and Research Institution started on 5th September 2005 as Dr.J.K.Mukkadan its Principal, affiliated to Mahatma Gandhi University. It has been re-affiliated to Kerala University of Health Sciences during 2009-2010. Education and healthcare are the two fields that have seen tremendous advancements in the recent past. The demand for professionally trained personnel in the allied health sciences has transcended geographical boundaries, with countries like USA turning to India for qualified people. India also is witnessing a growing demand for trained allied health professionals. Employment opportunities are therefore available in plenty. What is needed is to make concerted efforts to provide allied medical graduates with the required training to take on the challenging world of healthcare, teaching and research.

- Fee Structure

Welcome to a world of heightened health-consciousness, that is to a new era in healthcare, where global efforts in medical research and revolutionary breakthroughs have made the dread associated with ill health a thing of the past. The greatest gift God has entitled mankind to enjoy is health. Empowering people in all cultures and segments of society with necessary information and opportunities for health development is both an ethical and technical imperative. The order of Assisi Sisters of Mary Immaculate was founded by the Msgr. Joseph Kandathil to support his mission of caring for the unwanted and socially discarded lepers. Msgr. Joseph who devoted his entire life as a priest for mitigating the suffering of the lepers founded a Hospital in 1942. The hospital was constructed braving widespread protests against the setting up of an asylum for the leprosy patients at Cherthala. The 50 bed hospital came up on a plot gifted by one of the parishioners of the Muttom Forane Church where Fr. Joseph was then serving as Assistant Vicar. As Fr. Joseph's was an act that had few parallels in the province of the east while Travancore, the government also provided him substantial help in pursuance of his cause. In 1955 the Hospital was expanded into a 200 bed hospital.

The world is more dynamic than ever before. There is a sudden opening of the world economy to markets in both developed and developing countries and availability of technologies. As a result, current consumer preferences, product life cycles, employment concepts have undergone tremendous changes, because of which the challenges that the corporate world faces today are multi-dimensional. While on the one hand there is a need to augment resources – both technological and human, to face the competition all over the world, on the other there is also a need to reduce increasing costs. ‘The best quality at the least cost’ seems to be the motto of the present day economic development. From the human resources stand point, this necessitates the emergence of young and effective managerial talent with an exposure to strategic specialization. Our efforts in training the students match the current demands of the corporate sector. The admission procedures in our institutions are stringent. While academic records form a strong

base, success in aptitude tests help in further selection. Group Discussions and Interviews are the final deciding factors for selection. Once selected, they undergo rigorous training under the supervision of efficient and experienced faculty both within and outside the classes. Our fully equipped library, guest lectures, workshops by eminent academicians, industrialists, national and multinational corporates enhance their knowledge. Further, projects and dissertations, hands – on training at the corporates and seminars impart constructive practical experience for the future managers. Therefore, I strongly believe Moti Mahal College of Hotel Management is a corporate training ground for tomorrow’s efficient managers. We take pride in being a part of shaping up the careers of the students.
